

SLEEP HYGIENE

Like good oral hygiene good sleep hygiene helps children flourish. Maximize their chance for success during the day by enabling a good night's sleep. Here are some recommendations for school aged children:

9-12 hours of sleep

dark, quiet, and cool space

wind down: 30 minutes before bed start doing quiet and calming activities

No screen time during the wind down

consistency: go to bed and wake up at the same time each day

get organized for the next day: prepare your cloths, pack your lunch, etc...

WHOLE MILK IN SCHOOLS?!?!

Have you heard that the Vermont legislature is taking up the effort to make it OK to drink whole milk in schools? We already serve whole milk in our school.

INTRODUCTIONS

Not a new face but a new position here at WCA, Jane Watson has been a part of WCA for years and years. Previously, she was the 1st and 2nd grade teacher, and after some time away she has returned as a volunteer. Mrs. Watson has been heading up a “pull out” program to give enrichment and reinforcement support to various students in a one-on-one capacity. Not only does this help the students, but it allows the classroom teachers to direct their efforts in new ways.

JOB OPPORTUNITIES

If you or anyone you know is looking for a job or wants to volunteer for a worthy cause, point them to the WCAVT.ORG website. Our “Join the Team” page has a new intake form for anyone interested in the school or child care. Check it out!

FOOD SCRAPS

WCA has teamed with some local chicken keepers to provide them our food scraps. The students have begun separating out the food waste just as we already do with our recycling. The local racoon association has penned a strongly worded letter against us, but we will stand firm against them. We are glad to, as the Bible says, to take care of the earth and steward its resources.
